Hold on!

Ever experienced something so beautiful, you didn't really know how you felt?

Did you know how you felt but didn't want to forget?

Like your first moment alone with your new baby, or pride you felt at a family event for your child?

Your Circle of Life is a new organisation dedicated to keeping joy alive.

Moments like these are a gift.

Your Circle of Life allows you to hold them in your hand and feel them forever.

It is the only organisation devoted to truly recording *moments* in your life and those of your loved ones.

In a beautifully-framed document, we will present all the details that made you feel the way you did, so that you can keep feeling that moment forever.

This includes photographs, names, descriptions, personal details and times - even loved ones' DNA - so the unique moment will be alive forever.

A wonderful gift to yourself, a family member, or friend - just like life itself.

But there's a twist.

No other organisation offers a twist quite like Your Circle of Life.

The twist is this:

Not only can we record moments, we can actually record life.

Scientists agree that DNA will be used in the future so that you can live again.

Your Circle of Life can store the DNA of you and your family in a protective vessel, ready for when the time to be together comes again.

Consider the moment a child is born.

Had we asked the parents if they would like to record that child's DNA at that moment, we believe they would say 'yes'.
